EVERY SCHOOL IS DIFFERENT 每所学校皆不同

A good school is a focal point for a community – a place that shapes the lives of its pupils, their families and the people that teach them. Every school project offers an opportunity to tune into the constraints of its site, the neighbouring buildings and the open space around it.

The richness and diversity of the designed solutions are enhanced by a palette of details which have been honed from more than 25 years of experience. For example, the control of glare-free daylight while maintaining excellent ventilation has a measurable impact on student achievement; open-plan washrooms inhibit anti-social-behaviour; curved corners reduce accidents.

With a proven track record of delivering complex projects on time and on budget, we understand the factors that motivate operators and developers. We draw on the variety of our professional experience and the inspiration provided by each new project and new brief to create contemporary solutions which respect tradition and inspire excellence.

一所好学校是一个社区的焦点——一个对学生、学生家庭、以及老师的生活带来深远影响的场所。每一个学校项目都提供了一个绝佳机会来调和场地规限、邻近建筑、以及周围开放空间之间的关系。

经过 25 年对设计的不断打磨，各种多彩的细节让我们丰富多样的设计熠熠生辉。例如，保持良好通风的同时避免眩光的产生，对学生成绩的提高有明显帮助；开放的卫生间布局让反社会行为无处滋生；转角处的圆弧式设计让意外事故大大减少等等。

我们了解运营者和开发机构的关注与诉求，并始终可以按时按预算交付复杂项目，多年来拥有良好佳绩。我们依靠多样化的专业经验，以及从每一个新项目和设计任务书中汲取的灵感，创造出尊重传统、激发卓越的当代解决方案。

THE NEXT GENERATION 为新生代设想

The education sector is constantly evolving, and the old “one size fits all” model is no longer acceptable to parents, educators or learners.

Innovations in the curriculum and advances in pedagogical thought are leading to an emphasis on individuation, whereby learners have the opportunity to self-direct a great deal of their learning.

Technology is playing a key role, as learners seek the opportunity to interact with new tools and educators find ever more innovative ways of using new technologies. This will give rise to a greater need for pastoral and social facilities in order to enable future students to develop strong interpersonal skills.

There is also an increasing demand for uniqueness and localisation in school facilities. This not only creates a point of difference for publicity, but engenders a shared sense of pride among the student body.

As we face the challenge of reducing our impact on the environment, we aim to create net carbon zero school campuses. In this way, the next generation of schools can act as exemplars to the next generation of students in how to be responsible global citizens.

These trends – and more – will inform the future shape of schools. We are uniquely placed to advise on future trends in education and build that foresight into the facility.

教育设计领域在不断发展，从前的倒模式设计已不再为家长、教育者和学生所接受。

课程的创新和教学思想的进步推动了个性化教育的发展，让学生按照自身需要，在一定程度上主导学习模式。

随着学生不断寻求新的学习工具，以及教育者逐渐能够活用创新科技，科技在教育领域开始发挥越来越重要的作用。

而对于教导及服务设施的需求将不断扩大，以在未来能让学生发展出强大的社交能力。

同时，对学校设施的独特性和本地化的需求也越来越大。这不仅创造了一个独特的宣传卖点，而且也令学生群体产生了一种共同的自豪感。

我们致力创建零碳校园，以减少对环境的影响。通过这种方式，下一代校园将作为榜样教会下一代学生如何成为负责任的全球公民。以上以及其他更多的趋势将成为塑造未来学校的重要因素。我们在行业中的独特地位，让我们可以就教育的未来趋势提出建议，并将这种远见纳入实际项目之中。

The Maplethorpe Building comprises 100 bedrooms, teaching and common rooms and catering facilities. The client wanted the building to be as flexible as possible to ensure it could be used in future for different student needs or activities. To keep costs low and quality high, the design included as much pre-fabricated material as possible, whilst still allowing for customisation by the occupants and an eighty year design life.

A detailed daylight study was carried out to ensure the bedrooms and study areas received the right amount of daylight for optimum learning conditions. Bespoke modular furniture was designed to allow customisation of the bedrooms by the students. All of these factors made the building very high value for money.

通过对自然采光的详细研究，卧室和研究区域均可获得适当的日间采光，为学习创造了理想的环境。定制模块化家具为学生提供了个性化卧室的可能。所有这些因素造就了这座性价比极高的建筑。

Located in the new Qianhai district of Shenzhen, Harrow International School is a flagship project. The project was developed under the constraints of a very tight programme and a very compressed design period. Inspiration for the gathering spaces was drawn from the heritage of education in Europe, using the arch as a driving metaphor for the design. Symbolising stability, harmony and order, the arch embodies many of the values that the school seeks to impart. Elsewhere, learning spaces are given a softer, more informal treatment that allows students to occupy and feel ownership of their school building.

哈罗国际学校位于深圳市前海新区，在非常短的设计周期下完成。聚会空间的设计灵感来自传统欧洲的教育环境，使用象征着稳定、和谐和秩序的拱门作为设计的核心隐喻，以体现学校希望传达的价值观。而在其他地方，学习空间被打造得更柔和、更自由，以使学​​生产生归属感。

The inspiration for the Campus Project in Locking Castle, Weston-super-Mare, came from a vision about how schools fit into society. The brief was to provide primary education facilities for one of the largest housing developments in Europe. The client was North Somerset Council and they had high ambitions for the project to exemplify a vision for future schools.

The brief included a new primary school for 420 children, a 26 place nursery; an integrated 67 place severe learning disabilities school catering for 3 to 19 year olds; an adult education college and a host of community facilities from a library to a skate park to be provided on a constrained site adjacent to the commercial centre of Locking Castle.

This award-winning project has been commended as an exemplar community hub and a new paradigm of how a school can form part of a community.

位于 Weston-super-Mare 的 Locking Castle 校园项目设计灌注了学校融入社会的教学愿景，旨在为欧洲其中一个最大的住房开发项目提供基础教育设施。客户是北萨默塞特郡议会 (North Somerset Council)，他们寄予厚望，希望项目能成为未来学校的典范。

该项目包括一所可容纳 420 名儿童的新小学，一个 26 人的托儿所；为 3 至 19 岁严重学习障碍儿童开办的 67 个学位的特殊学校；一所成人教育学院；以及从图书馆到滑板公园的一系列社区设施，都将在紧邻 Locking Castle 商业中心的一块限制重重的场地上实现。这个屡获殊荣的项目被誉为一个模范社区中心，以及一个融入社区的校园新范例。
