

LWK + PARTNERS inspires communities with 34 years of trendsetting solutions

LWK + PARTNERS is celebrating its 34th anniversary!

The past three decades or so have seen the practice evolving into a key player in the urban dialogue, influencing future forms of built spaces through mind-blowing design, subtle solutions as well as brazen visions. Our multidisciplinary platform of design specialists forms a rich trove of knowledge and insight that has led to many transformative landmarks and continues to set the trends for design and architecture around the globe.

All the while, the practice has seen thriving growth in China, Southeast Asia and MENA, diversifying our design expertise along the way and leading to a major rebrand earlier this year. Our refreshed identity has taken us further into wider terrains, as we build on a strong range of capabilities spanning from conceptual design and masterplanning to realisation and execution.

It was also on this solid foundation that new LWK + PARTNERS studios emerged in Beijing, Dubai and Singapore over the past year, instigating opportunities for more new ventures. With a broad clientele across sectors, we continue to approach each project with community-driven aims to ensure that project efficiency is led by intentions towards positive social impact. On our 34th birthday, let us capture the key elements that have brought LWK + PARTNERS to its current stature as one of the world's 40 largest architectural practices and a prominent leader of industry-wide reforms:

Knowledge & Leadership

We stay at the forefront of market trends, stir up dialogue and pave the way for bolder steps forward. We challenge orthodox perceptions by redefining the relationship between human and architecture.

A culture of sharing spills from LWK + PARTNERS as its members offer valuable insights for the industry

LWK + PARTNERS

People & Culture

Humanity is at the heart of our designs. From conception to realisation, we empower communities by creating impactful experiences. We create lifestyle by shaping the environment, from grand design to intricate details.

Deep cultural acumen underpins the design of Landmark Riverside Park – Phase II: Danzishi Old Street in Chongqing

Local landforms artistically distilled to form Chongqing Jiangshan Yun Chu – Legend Gallery

Evolving & Diversified

We dare to explore new disciplines and hone our creative expertise to deliver all-round solutions with BIM application and top-notch quality. We have forayed into the fields of interiors, lifestyle, education and medical and health care, synergising with current footholds in sectors like architectural and landscape design. Our Lifestyle team helps the firm stand out even more through creating enriched retail experience as well as new lifestyle for people with innovative and bespoke tools. We are also deeply engaged in large-scale projects that reshape urban landscapes, planning out and contributing to early models of transit-oriented developments, for example.

The interiors of Kei Cuisine in Hong Kong exude subtle elegance

The beautiful interplay of texture and linearity gives Spiritual Bay Pavilion in Qingdao its unique identity

LWK + PARTNERS

The appeal of infinite possibilities motivates LWK + PARTNERS across its global platform amid a fast-changing world. As a burgeoning hub of creativity, we will continue to serve and inspire communities with world-class solutions and progressive insights in the coming year.

Over the last 34 years of dynamic evolution, LWK + PARTNERS has never ceased to promote the wellbeing of people with original design and highly informed solutions. In this capacity, we are calling for individuals and entities who share our vision of a sustainable world to join us in building a better future for all. Together, we will achieve even more.
